

MARTINSVILLE POLICE ASSISTING WITH RESTAURANT RESTROOM VOYEURISM INVESTIGATION

No current threat to the public

Martinsville, Ind. – February 25, 2016 – Assisting the Hendricks County Sheriff's Office this week with a voyeurism investigation, Martinsville officers were advised by Hendricks County officials that a person of interest in their investigation also is an employee at Chili's Restaurant in Martinsville.

According to Police Chief Rick Lang, sources in Hendricks County allege voyeurism by an electronic device may have happened in the women's restroom at the Chili's here as well, possibly occurring March – August of last year.

“Our officers immediately secured the women's restroom at the Chili's here in Martinsville and determined there is no current threat to the general public.

“We understand the electronic devices belonging to the person of interest were turned over to the Indiana State Police for forensic examinations. The results of those examinations hopefully will reveal whether a crime actually occurred in our jurisdiction or not. This is an ongoing investigation and we are awaiting the results of the examinations to make that determination,” Lang said.
